

Introduction to NobelPage

NobelPage is a next-generation professional networking platform built to connect global talent without bias. Aligned with anti-discrimination principles, it provides an inclusive, transparent, and skills-focused ecosystem where all professionals — from executives to blue- and pink-collar workers — can access equal opportunities. By bridging gaps left by traditional platforms, NobelPage redefines recruitment and networking through tools that prioritize verified skills, credentials, and diversity.

With a **global vision** and a **scalable technology stack**, NobelPage is more than just a platform — it is a movement toward fairer workplaces and equitable hiring practices worldwide.

Core Purpose

- Empower global talent beyond boundaries through diversity, equality, and transparency.
- Create measurable change in hiring and networking practices by fostering inclusivity.
- Leverage innovation to connect professionals across all sectors, skill levels, and geographies.

Platform Structure & Technology

NobelPage operates as a **web platform** with a dedicated **WorkerPool subdomain** for blue- and pink-collar professionals. Each has its own **iOS and Android mobile app** (developed in Flutter) plus an **administrative control panel**.

The platform is developed using **MERN stack** technologies (MongoDB, MySQL, React.js, Node.js) and is self-hosted, including:

- **Content moderation (selfhosten opensource, modguard.)**
- **Secure chat messenger**
- **API integrations** for third-party connections
- **Admin Panel:** Allows to manager internal admins and user roles, content of the portal, reporting, anayltics , Paymnet, user behaviour tracking and profiles, cobon codes and more.

Dedicated **Figma design prototypes** exist for:

- NobelPage Web
- NobelPage App
- WorkerPool Web & APP

The platform is **ready for testing**, with APIs and system components in place.

Key Features

1. Membership & Pricing

- Four main membership levels: **Starter, Nobel, NobelPlus, and Scout**.
- Each level includes specific add-on packages, restrictions, and capabilities.
- Pricing is regional, with three country categories based on GDP.
- Additional *pay-as-you-go* upgrades are available without requiring full membership changes.

2. Core Networking & Content Tools

- Similar to LinkedIn: post feeds, comments, likes, shares, translations, endorsements, profile creation, reporting, groups, and business pages.
- Additional tools include:
 - **Dedicated TalentPools** linked to business pages
 - Event creation
 - Newsletters
 - Hiring/Seeking badges
 - Job posting and application tracking
 - Data analytics
 - **Campaign Manager** to feature posts, articles, newsletters, or jobs.

3. Truth Badge Verification

- Confirms **education, employment history, and skills**.
- Badges available: Education, Employment, and WorldScan.
- Verification is optional and processed via a licensed US-based background screening partner.
- Increases recruiter trust and profile visibility.

4. Scout Search

- Exclusive to **Scout membership** (recruiters).
- Advanced, bias-free search algorithms shortlist candidates based on skills, not personal background.
- Recruiters can request full profile data after shortlisting.
- Ability to send **self-paced interview** invitations directly.

5. Self-Paced Interviews

- Recruiters send a predefined question set to shortlisted candidates.
- Candidates record timed video answers (stored for 14 days, viewable only on-platform).
- Improves hiring efficiency and flexibility.

6. Specialized TalentPool

- Associated with a business page, fully branded with company identity (logo, colors, banners).
- Can be embedded into company websites as a dedicated career portal.
- Functions independently from NobelPage while still integrated for job posting and candidate management.

7. WorkerPool

- A separate environment for blue- and pink-collar professions (e.g., nannies, plumbers, drivers, technicians).
- Allows **private or public** profile modes (public mode visible to all; valid for 30 days).
- Agencies can list multiple workers under one profile.
- Available as an independent app and web portal.
- External users can post jobs and contact workers without creating a NobelPage profile.

8. Smart Matching

- AI-based matching using **competencies and hidden profile data** beyond job titles.

9. Stylish ATS-Friendly CV Downloads

- Four customizable layouts, auto-filled from user profiles (with manual editing).
- ATS-friendly for applicant tracking systems.
- Users can also upload existing CVs.

10. End-to-End Recruitment

- Save search filters, use questionnaires, conduct interviews, shortlist candidates, and manage offers entirely on the platform.

11. Lead Management

- Track potential candidates or contacts as “leads” (up to 40 groups).
- Assign actions such as call, connect, contact, or schedule a meeting.
- Exportable as spreadsheets.

12. Global Networking & Job Applications

- Connect with professionals and employers worldwide.
- Apply for roles across all industries and experience levels.

13. Integrated Social Media Links

- Connect up to four social media accounts to profiles.
- Sync and display recent posts on the profile page.

14. Affordable Pricing

- Subscriptions and add-on purchases significantly cheaper than comparable platforms.
- Flexible pricing allows feature expansion without full membership upgrades.

15. Inclusive Design

- Built for **all skill levels and industries** — from entry-level workers to executives.

16. Messenger System

- Independent, secure chat system hosted entirely by NobelPage.
- Functions similarly to LinkedIn messaging, with privacy-focused design.

Why NobelPage Stands Out

- **Inclusivity & Diversity First:** Designed for all job sectors, not just white-collar professionals.
- **Verified Transparency:** Truth Badge ensures authenticity.
- **Cost-Effective:** Affordable recruitment and networking.
- **Global Reach:** Expands access to underserved markets.
